SUMMARY

I am currently pursuing a Master's degree in Data Science at Stockholm University. I have experience in sales, customer service, process operations, and logistics, combined with technical skills in Python, R, and machine learning. I am fluent in Swedish and English and have a passion for exploring diverse cuisines and skiing. I am always eager to learn and grow, both personally and professionally.

EDUCATION

Stockholm University

Master's Program in Data Science, Statistics and Decision Analysis

Stockholm, Sweden

2024 – 2026

- Completed courses in Data Science, Decision Analysis, Statistics, and Data Analysis.
- Active member of the Football team at the university.

Lund University

Bachelor of Science in Political Science

Lund, Sweden

2021 – 2024

- Focused on international relations and East Asian studies, with a thesis examining China's military expansion in East Asia and its geopolitical implications.

Hanyang University

Language Studies

Seoul, South Korea

2020 – 2021

- Completed Korean language courses.

PROFESSIONAL EXPERIENCE

Stora Enso - Summer Job

Process Operator

Skoghall, Sweden

Apr 2024 – Sep 2024

- **Operations Optimization:** Performed routine checks on facility equipment and machinery, participated in daily meetings to plan pulp production, and optimized transitions between different pulp machines. Managed pulp orders from regional storage facilities to maintain a consistent supply of dried pulp for uninterrupted production.
- **Equipment Management:** Operated large forklift trucks and unloaded deliveries from trucks, ensuring efficient handling of incoming materials.

Axfood Snabbgross - Summer and Part-Time Job

Sales and Customer Service (B2B)

Karlstad, Sweden

May 2023 – Aug 2024

- **Sales & Customer Service:** Worked closely with B2B clients, providing excellent service and ensuring their needs were met quickly and professionally.
- **Training:** Assisted with onboarding and training new summer staff, guiding them through their responsibilities, explaining routines, and offering support to make sure everything ran smoothly.
- **Packaging and Logistics:** Packed and coordinated custom restaurant orders and managed morning goods deliveries to ensure seamless operations.

SKILLS & PERSONAL

Languages: Swedish (native), English (fluent)

IT Skills: Python, Pandas, NumPy, Scikit-learn, R, data analysis, machine learning, data science, statistics, HTML, CSS.
